Health Advocacy
Help resolving healthcare-related issues

The Health Advocacy feature provides personalized assistance to help you and your family navigate the complexities of the healthcare system.

A Personal Health Advocate, typically a registered nurse supported by medical directors and benefits and claims specialists, can help you with a full range of healthcare and insurance-related issues to save you time, money and worry.

Our Health Cost Estimator™ service provides detailed estimates for dozens of medical procedures and services... right in your area. Call us and we can give you the cost information you need, so you can make an informed decision.

If you have a healthcare or insurance-related issue, call our toll-free number. You’ll be assigned a Personal Health Advocate who works with you one-on-one to find solutions to time-consuming issues, such as sorting out billing concerns, finding qualified doctors, transferring medical records, finding eldercare and more.
